Operations, useful contacts and where to go!

## Welcome

Welcome at Villa Shakti, we hope you will have a wonderful stay at our villa. The villa is set up to give our guest the living experience of the tropics whilst enjoying all modern comforts. We build the Villa using as much natural materials from selected suppliers and our staff are all personally trained and well taken care of. Our mission is to provide our guest a luxurious getaway and at the same time investing in our people with education while straining the environment as little as possible.

## Service & contact

There is a daily cleaning, pool and gardening service. On Sunday's and selected religious holiday's our staff is off and there is no service to these areas. Our staff will inform you on these days.

During your stay feel free to contact the housekeeping staff for questions about the operations of the villa and requests of service provided in the Villa. **We can not help you with inquiries about money exchange, transportation, tours, and other outside villa matters** as in reality we found out this does not work out for our guest and staff due to communication issues. We will have a list of suggested suppliers we can recommend and you can contact but never take responsibility for.

### Check in / Check out

At Check in our housekeeping staff will show you around and tell you all about the operation of the villa, Our check in time is 14:00 and check out time 12:00. Our housekeeping staff will handle this and if you would like a late check in or checkout please inform our staff in time so research the possibilities.

### Pool & gardens lamps operation

Villa shakti's unique salt water pool is operated on a timer base, the switches for garden and pool lights are located in the front of the villa, in the corner at the veranda.

### Electricity / Water

Indonesia is a country in development, and with that it's infrastructure is strained and behind schedule in development. This means that during your stay you can endure black-outs of electricity and water as we pump up and filter our own water. The water we use is pumped up from over 70 meters deep and filtered providing you with clean water, natural odors from minerals in the ground are common and of no health risk.

**If a water or Electricity black out occurs while there is still electricity in the area please contact us right away**

### Electricity usage

Villa Shakti is a conscious accommodation villa and all our appliances have been selected for energy efficiency. Please help us save Bali's environment and use electricity wisely.

We provide a 100 KWH per day electricity consumption, this is enough to have the aircon's running when in the bedrooms, the villa and pool/garden lights on and still comfortably use all appliances. Please make sure during the day the lights are switched off and the Aircon's are switched off when you leave the room. All airconns are high power and get your room chilled within minutes, so no need to leave them on when you are out.

**\* When exceeding the 100KW per day allowance, Villa Shakti charges 200.000 IDR per 100KWH at check out.**

## Laundry

Villa Shakti provide you with fresh towels daily and change your bedsheets every 3 nights. If you would like to have your own laundry done you can bring it to the Laundry 30 meters to the right as you exit Villa Shakti ask our housekeeping staff to bring it to the Laundry. Laundry services are relatively cheap in Bali, but laundry can be damaged due to differences in standards of cleaning and stains or overbleaching can occur. Usage of the Laundry service is totally at own risk.

## Security

Villa Shakti has a private security guard in the nights. Also we have close relations to the community helping us to keep the villa safe. Although Bali and especially this region is considered a low -crime area, we do suggest you keep your belongings in the Safe provided in the room.

When you go out of the villa, please always lock the big front gate with the lock.

BMC, you will find them on many locations. the closest one you find on Jl. Raya Kerobokan - Tel: 0361 737070. or have a look at [www.balimaspintjina.com](http://www.balimaspintjina.com)

## Tipping

If you had a good time in Villa Shakti, please consider tipping our staff. Life in Indonesia is hard, and although we take good care of our staff, it is always nice for our staff to have a tip to show appreciation and help them out a little bit. Guidelines are 10.000 - 50.00 IDR per staff member per stayed night.

## Driving Instruction

Coming from the airport on Sunset road, at the end turn right on Jalan Raya Kerobokan. Drive for several kilometers, at the second traffic light turn left (bar restaurant arena, with the airplane parts on top of the building). follow the road down, making a right bend after 300 meters, follow the road and all it's turns. After a 90 degree bend you will see Cafe Moka, Bali Buda cafe, Pizza Boy and a bar called plumbers arms. After these restaurants go straight and stop following the road BUT, immediately after you enter the road turn left after 10 meters (just after a temple). Now follow the road, just one small intersection where you go straight and after the intersection 200 meters...is Villa Shakti in your left side!
